Telephoned Mary Guyton re letter concerning Miss Noonan - Emmanuel girl - who gave me as ref - stating she was employed as social worker 1935-36.
She discussed it & also M.J.S.

Mrs. Brosnahan of Revere called at 12. to ask me to speak at Revere. The Revere Women's Club have turned over their entire program to her for Wednesday January 17. 1940. She had secured Congressman Flaherty as a speaker but of course he was too busy to come so at the meeting she thought I could save her life by speaking. - etc etc. Wanted me to talk on Holmes Committee or Dies Comm. Declined that as a topic but would talk in general on "communists & communist propaganda. She seemed very much agitated on Communism. Knew there were Communists. The N.Y.A - W.P.A or some such group had forums and

they were under her. Every janitor in buildings they met told her that they were Communists. So she asked them if they were & they denied it. Then she asked about opposing religion and one said "We must oppose religion because religious leaders are a bad influence on American life. She asked them to name one religious leader who was a bad influence. Answer. "Cardinal O'Connell." Name another: "The Pope" So then she told them she understood them better. Of course they were Communists. It seemed to me that these answers might have been made by Baptists. She talked at length and I gathered I could talk on anything re immigration. Topic - immigration unless I suggest another little over phone Monday.

Worked P.M. with Emmanuel girls clearing files and material.

Dr. McGillicuddy telephoned me at home on Saturday night.

M.D.A. absent ill.

Democracy, as an organic conception of a satisfying mode of life, rests upon the assumption that we shall be moving steadily in the direction of a more widely distributed ownership of property, a tendency toward general equality of income, and a gradual trend toward general participation in education and the various arts.

Mrs. Theofilia Tattan
Mrs. Sally Chmiel
Miss Mary Sangorgio
Miss Elizabeth Lavoie

Mrs. Tattan spoke on the present day problems & technicalities getting up as shown in day to day work with clients at Boston; Mrs. Chmiel told of the difficult problems of family reunion of Polish refugees; Miss Sangorgio explained the social values and significance of the new plans for adjusting irregular immigration statues by the present method of pre examination for such change of status; Miss Lavoie co-ordinated the work of a branch with the main office showing that while the main office covers a variety and that the schedule of workers were arranged to give some time for concentrated

not be disturbed or altered in any way allowed the state found it necessary to charge fees for the work the Division would still receive blanks free and applicants would be referred directly to our offices as heretofore. Dr Haggard further stated that this decision had been reached not solely on the ground that this was a state organization but also because the twenty odd years of cooperation between state and national work had proved that exploitation was definitely reduced and minimized by the state work. The federal workers feel that charging fees will mitigate against the value of the work since the most ignorant are usually less willing to pay fees and are most easily exploited by persons who "guarantee results".

The board decided to study the fee question more carefully and vote, & procure a written statement from Washington.

The Chairman asked Mr Bowers to report on the recent feed work opened up at Northfield at his request by Mr Hurley from the Soil Power office. Mr. Bowers stated that he felt Mr Hurley had done excellent work, but that it was unfortunate for one man to adequately interview the numbers calling for service in one day. The correspondence

had been that the clients would all day
and were told to come next week & the week
after. The bureau called with a client at
4.45 P.M. and found 30 clients waiting
Mrs. H. He felt that if the work couldn't
be properly and adequately done it perhaps
might better be closed out entirely.

There was a general discussion of the
situation and it was decided to have further
study made and a plan on the subject
made by Supervisor of case work.

The Supervisor reported on the study of derivative
citizenship made under her chairmanship for
the National Council on Naturalization and
Citizenship.

situation by the Article in New Bedford Standard Times.

Miss O'Connor reported concerning her observations at New Bedford on the two days she had visited there.

Mr. Gomes stated that while he felt that more work was needed in N.B. he still desired that Mr. Hurley continue his activities there for the one day a week as at present. He had suggested that more help be given because it was obvious that the work was too heavy for Mr. Hurley but that undoubtedly his services were of great value He hoped for their continuance.

It was moved by Dr Churchill & seconded by Mr Jaworski that the Fall River agent, Mr. Hurley continue to visit New Bedford for one day a week. [illegible]

It was decided to study the matter before the next meeting and then make plans for publicity either by a conference or by medium of the press to offset this sentiment.

The Annual report was discussed and it was voted to send it to the printer with the approval of the board.

Mr. D'Alelio's impending resignation was discussed and the possibility of securing an experienced person was discussed. It was suggested that the particular needs of the work be brought to the attention of the personnel office.

Meeting of Advisory Board held on Friday June 28, 1940 at 4 P.M.

Mrs. Eva Whiting White
Mr. B. A. Jezierski
~~Mrs. Loretta Murphy~~
Miss Joan Kiely.

The minutes of the last meeting were approved as written.

The Director asked Miss O'Connor to report to the Board concerning a plan for volunteer assistance to the Division for the purpose of taking care of the many applicants who are calling for citizenship help.

Miss O'Connor reported that Mr. Russell Gerould, secretary to his Excellency, Gov. Saltonstall had consulted Commissioner Downey concerning a plan to assist ~~volunteers~~ by volunteers. These volunteers were to be selected by Mrs. Jules Burns a lady who has been appointed by the Governor for this purpose.

Mr. Downey had discussed the matter with Miss O'Connor and had informed Mr. Genoud ~~about~~ that the Division would try out a few possibly two volunteers. The board discussed the feasibility of the use of volunteers. It was

VOTED

to accept the use of Volunteer help on an experimental basis. The Supervisor was directed to report to the board as to the matter at the next meeting.

Mrs. White had already discussed the need of a room, desks, typewriters, etc for such a project and had a conference scheduled with Mr. Genoud to discuss these points later in the afternoon.

Mrs. White asked Miss O'Connor to report on the present pressure of work in the division. Miss O'Connor advised that the proposed alien registration act had stimulated applications for naturalization and stated that there was tremendous pressure of work. Each morning there were from fifty to one hundred persons

waiting at the door. The Home Staff had
worked overnight until 7 or 8 and
applicants had not left the office
until after nine o'clock.

There is no record of any vote
but it was later voted

VOTED

to give a dinner party for the employees
every month and the Ladies were
asked to put $1.00 a month into it for
it was decided unanimously to
make arrangements with the restaurant
they belong to for food & drinks.

The meeting adjourned at 11.45

Aliens Advised to Register Even if Uncertain of Status

The advice that aliens should register under the alien registration act even if they are uncertain of their legal status in the United States was given by Earl G. Harrison of Philadelphia, federal director of alien registration, at a meeting of teachers of adult classes, social workers and others in the public library yesterday.

Informed by several of the teachers that aliens had confided fears that registration might result in the discovery that they were illegally in this country, and force their deportation, Harrison recommended that the teachers should advise these persons to register.

He said the government had ways of checking, and probably would discover those who failed to register. He said he did not believe there would be wholesale deportations because of discoveries of persons illegally in the country.

"I fully believe that the merits of individual cases will be considered," he said. "I do not think that our government is going to change its attitude overnight and get rid of a large number of persons who are known to be law abiding."

Harrison praised the work which has been done in Boston in registering aliens. Miss Alice O'Connor, of the division of immigration and Americanization of the state department of education, led the discussion. Roy Cushman, executive secretary of the Boston Council of Social Agencies, presided and introduced Harrison.

The meeting was sponsored by the state division of immigration and Americanization, the Boston Council of Social Agencies, the International Institute and the Hebrew Immigrant Aid Society.

We can refer those who have particular ɔlems and questionable situations to immi-nt aid organizations such as those mentioned ɔve.

3. We can help non-citizens make out the ɔample or application form designated as A-R-1 and supply the necessary information.

4. We can help allay fears.

5. We can inform ourselves of the basic nat-uralization laws so that we may know who are aliens and help others establish their citizenship status.

SKETCHES

Our Gracious Ladies

By NATALIE GORDON

Modest, kindly and unassuming, Mrs. Eva Whiting White of Boston decided as a young girl to contribute her time and superb vitality to the needy, and was the first woman in New England to receive a degree in social service. . . . Graduated from Simmons College, she plunged into welfare work at the Elizabeth Peabody Settlement House, with such success that she soon became its head resident . . . During the world war she served as liaison officer between the Department of Labor and the United States War Department. . . . At the present time is a member of the board of public welfare of Boston; president of the Woman's Educational and Industrial Union, which last year obtained employment for 2393 people; non-resident lecturer at Bryn Mawr, a position she has held for eight years; lecturer at Simmons College and Boston University; chairman of the Central Committee of the Federation of Massachusetts Handicraft Guilds, and chairman of the state division of immigration and Americanization. . . . Extremely fond of travel, she is interested in studying the European backgrounds of the people whom she has helped in her settlement work. . . In England, was particularly interested in making a comparison of their national security acts and ours. . . . Realizing what all work and no play did to Jack, she enjoys hiking, golf, archery, music and the theater. . . . Beneath her quiet poise runs an undercurrent of charming mirth, of tolerance and deep understanding.
